

Yarsan Democratic Organization condemns Nice terror attack

A 31-year-old French-Tunisian man used a lorry to kill many innocent people in a terrorist attack yesterday 14 July.

At least 84 people, including several children, have died after the terrorist drove the truck through crowds celebrating Bastille Day in Nice.

The killer swerved from side to side to kill as many people as possible.

It's a goal for the fanatics and anti-democratic organizations to attack the French democratic values, which is an inspiration to the entire world.

France has proved to everyone that they will be stronger than the fanatics who wish to hurt the France people and its democratic values.

As a democratic organization who defends the democratic values and against any terrorist and anti-democratic movements, condemns strongly this terror attack, which is against civilizations and humanities.

The Yarsan Democratic Organization sympathizes with the victims, and we stand in strong solidarity with the French people.
